

VALVES

EMPIRE

The Empire valve of the 1920's reproduced in all it's glory.

½", ¾" and 1" Connections.

EMPIRE, UNION, TRADITIONAL & EASICLEAN ARE SOLID BRASS RADIATOR VALVES AND LOCKSHIELDS, ENGINEERED AND HAND MADE IN GREAT BRITAIN TO AN EXTREMELY HIGH STANDARD.

All radiators require valve & lockshield. The actual valve, to allow and adjust the flow of water into the radiator, and a lockshield at the other end, to isolate the radiator if, for instance, any maintenance work is required.

EASICLEAN

Lockshield.

UNION

Union wooden handwheel with exposed headwork ½", ¾" and 1" Connections.

Shown here with traditional lockshield.

EMPIRE

THERMOSTATIC

Thermostatic option for the Empire range.

½", ¾", and 1" Connections.

TRADITIONAL

Lockshield.

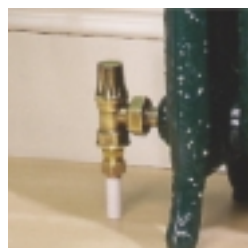

The Empire and Union valves are both available with traditional or easiclean lockshields at no extra cost.

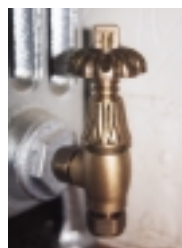

OTHER FINISHES AVAILABLE
