Product: Nouveau – Victorian styled cast iron radiators

For period and traditional styles of property, Tuscan Foundry Products Ltd has the perfect heating solution. The elegant Victorian 'Nouveau' cast iron column radiator is enhanced with a scrolled relief pattern making it an eye-catching centre piece of any period styled interior, whilst providing all the benefits of modern heating. To complement most colour schemes, the 'Nouveau' has an attractive gunmetal primer finish unless otherwise specified. Each radiator comes complete with plugs, bushes and vents and is available in two heights of 750mm and 950mm. In addition, Tuscan provides an extensive range of traditional solid brass, nickel or chrome radiator valves to create the perfect Victorian cast iron replica radiator.
